Click here to register for the Trigonometry Test

Below is a flowchart outlining the process of the VT Trigonometry Module for students who are eligible. On the next page are frequently asked questions.
Frequently Asked Questions

1 The Virginia Tech Trigonometry Module
   1.1 What is the Virginia Tech Trigonometry Module?
   1.2 How do I know if I need the Trigonometry Module?

2 The Trigonometry Test - Logistics
   2.1 How many times can I register for the Trigonometry Test?
   2.2 How can I register for the Trigonometry Test?
   2.3 When can I register for the Trigonometry Test?
   2.4 When and where can I take the Trigonometry Test?
   2.5 I registered for the test but did not take it during the associated testing period. Does this registration count?
   2.6 I registered for the test twice but never earned a passing score. Now what?

3 The Trigonometry Test - Preparation
   3.1 How can I prepare for the Trigonometry Test?
   3.2 I have signed up for the Trigonometry Test and received a registration confirmation email from the Mathematics Department. How can I view the practice problems?
   3.3 I tried to access the practice problems via the link in my registration confirmation email, but I received an error message. Why can’t I view the practice problems?
   3.4 Are calculators allowed on the test?
   3.5 Will scratch paper be provided?

4 Test Scores
   4.1 What is the required minimum score on the test?
   4.2 What if I do not obtain the required minimum score?
   4.3 Do I need to report my score to my academic advisor?
   4.4 How can I check the transfer credit earned from a passing score?

5 Contact
   5.1 My question was not answered in these FAQs. Who can I contact for further information?
1 The Virginia Tech Trigonometry Module

1.1 What is the Virginia Tech Trigonometry Module?

The Trig Module is the combination of the trigonometry section of the MATH 1014 online textbook, online trigonometry practice problems, and the proctored assessment called the Trigonometry Test. Trigonometry Module eligibility and a passing score (70%) on the 20 multiple choice question Trigonometry Test will earn Math 1014 transfer credit.

1.2 How do I know if I need the Trigonometry Module?

If your transcript shows credit for VT Math 1014, you do NOT need the Trig Module. If the following shows in the Transfer Credit Accepted by Institution section of your transcript then you can earn Math 1014 transfer credit by passing the Trigonometry Test.

<table>
<thead>
<tr>
<th>Subject</th>
<th>Course</th>
<th>Title</th>
<th>Grade</th>
<th>Credit Hours</th>
<th>Quality Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>VT</td>
<td>TRIG</td>
<td>Needs Trig Module</td>
<td>T</td>
<td>0.000</td>
<td>0.00</td>
</tr>
</tbody>
</table>

It is suggested that you discuss whether to take the Trigonometry Test with your academic advisor.

2 The Trigonometry Test - Logistics

2.1 How many times can I register for the Trigonometry Test?

Eligible students can register to take the Trigonometry Test a maximum of two times while enrolled at VT.

2.2 How can I register for the Trigonometry Test?

To register for the Trigonometry Test, fill out the registration form while the registration form is open. Be sure to log in to your VT Google account to access the form.

2.3 When can I register for the Trigonometry Test?

<table>
<thead>
<tr>
<th>Semester</th>
<th>Registration Form Open Date</th>
<th>Registration Form Close Date</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fall</td>
<td>July 1</td>
<td>5pm on first day of fall classes</td>
</tr>
<tr>
<td>Spring</td>
<td>December 1</td>
<td>5pm on first day of spring classes</td>
</tr>
</tbody>
</table>

2.4 When and where can I take the Trigonometry Test?

**Fall 2020**

<table>
<thead>
<tr>
<th>Test Date</th>
<th>Test Time</th>
<th>Test Location</th>
</tr>
</thead>
<tbody>
<tr>
<td>Monday, August 24, 2020</td>
<td>7:00 - 9:00pm</td>
<td>provided in confirmation email</td>
</tr>
</tbody>
</table>

IMPORTANT:

- This test information applies only to Fall 2020.
- You must have received confirmation of your registration to attend the test.
- You must bring your own laptop and Hokie Passport.
- As the proctored test is an in-person session, the Virginia Tech Wellness Principles apply. Specifically, to uphold these principles, students must adhere to the following:
  - Wear a face covering during the time they are in the classroom, including as they enter and exit the classroom.
  - Maintain the designated distancing guidelines of the classroom.
  - Enter and exit class according to posted signage.
2.5 I registered for the test but did not take it during the associated testing period. Does this registration count?

Students can register a maximum of two times, regardless of whether they take the test after registration. See flowchart above.

2.6 I registered for the test twice but never earned a passing score. Now what?

You are no longer eligible to earn VT MATH 1014 credit through the the VT Trigonometry Module. Consult with your academic advisor if you have further questions about earning VT MATH 1014 credit.

3 The Trigonometry Test - Preparation

3.1 How can I prepare for the Trigonometry Test?

The Trigonometry Test covers material from Unit 3 in the MATH 1014 online textbook, available at any time from any device with an internet connection.

Additionally, unlimited access to online practice problems from any device with an internet connection will be available once you have signed up and received a registration confirmation email from the Mathematics Department. A link to the practice problems will be included in this confirmation email.

3.2 I have signed up for the Trigonometry Test and received a registration confirmation email from the Mathematics Department. How can I view the practice problems?

A link to the practice problems was included in the registration confirmation email that you received. You’ll need to sign in using your Virginia Tech two-factor authentication. If you have misplaced this email, see contact information in Section 5 below.

3.3 I tried to access the practice problems via the link in my registration confirmation email, but I received an error message. Why can’t I view the practice problems?

Have you registered during the current registration period? See question 2.3. If you believe you are registered during the current registration period, see contact information in Section 5.

3.4 Are calculators allowed on the test?

You can bring a scientific calculator to the test, or use a scientific calculator on your laptop.

3.5 Will scratch paper be provided?

The proctor will have scratch paper available for use. If you prefer, you may bring your own scratch paper and will need to show the proctor that it is blank before it is used.

4 Test Scores

4.1 What is the required minimum score on the test?

A score of at least 70% on the 20 multiple choice question test is considered passing.

4.2 What if I do not obtain the required minimum score?

Was this your first or second test registration? See flowchart on first page.
4.3 Do I need to report my score to my academic advisor?

While students do not need to report scores to academic advisors, it is wise to note scores at the time of the test.

4.4 How can I check the transfer credit earned from a passing score?

About a week after earning a passing score on the Trigonometry Test, check the Transfer Credit Accepted by Institution section of your transcript. Where it once said VT TRIG, it should now say MATH 1014.

5 Contact
